Subject: PPE pilot sessions at Nexgen Edusolutions (P) Ltd, New Delhi, 27th-28th November, 2010.

Dear Anita,

This is in reference with the facilitation of the pilot sessions of your coveted Program for Personal & Professional Excellence (PPE) to our staff and students on 27th-28th November 2010. I would like to take this opportunity to extend my heartfelt appreciation for the efforts put in by you and delivering a highly interactive and informative workshop to our staff members and students.

I received a very positive feedback from the attendees of both the groups. I am very impressed with your program content which is delivered with a structure and impact. I believe PPE can be a very effective tool in equipping individuals with requisite soft skills which can be applied immediately to increase personal and professional effectiveness.

I was personally and professionally inspired by the program. The sessions offered essential skills that help drive personal and professional success. I would like to appreciate your efforts in delivering the workshop with passion, energy and expertise. Your willingness to share examples and experiences from your personal life is a unique component that created an environment where participants feel safe and willingly open up to each other.

Thanks for the quality program delivered and I look forward to have a long-term association with you.

Sincerely

Santosh Mangal
